Water Color

is in the eye of the beholder.

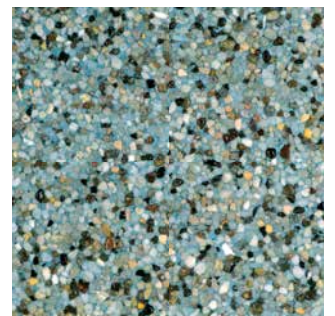

NPT[®] Interior Pool Finishes

are exquisite mixtures
of color and texture
in an array of
spectacular blends.

While our formulas are
accurate and consistent, the
color of your pool's water
will be uniquely yours.

StoneScapes[®]
Mini

Aqua Blue
Pool Finish

The secret to having
**Beautiful
Pool Water**
is selecting the right
interior pool finish
for you.

Ask your builder
to show you other
pools in your area
and samples of various
finishes to help you with
your decision.

You may also visit nptpool.com to
find out more information on pool
finishes available to you and view
our water color gallery at:

[nptpool.com/pool-finishes/

| Sand Pool Finishes = Light Green Watercolor |

Light Gray

| Light Gray Pool Finishes = Light Gray Watercolor |

Green

| Green Pool Finishes = Green Watercolor |

Blue Gray

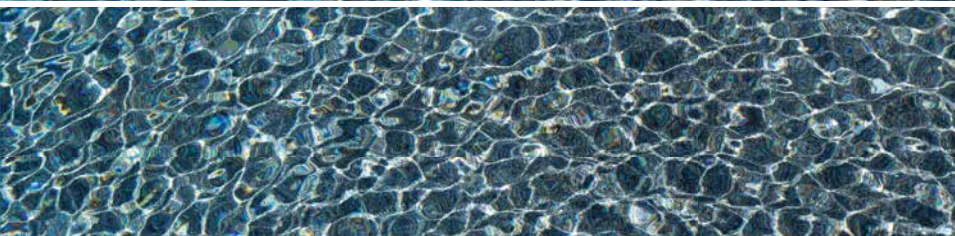

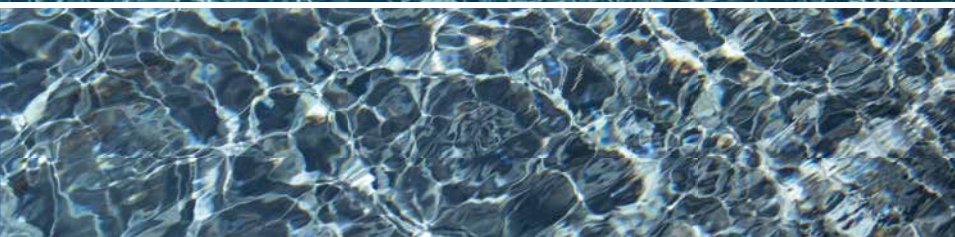

| Blue Gray Pool Finishes = Blue Gray Watercolor |

Dark Blue

| Dark Blue Pool Finishes = Dark Blue Watercolor |

Deep Dark Green

| Black Pool Finishes = Deep Dark Green Watercolor |

First, Decide...

whether you would like the water in your pool to appear blue or green.

For water that looks primarily blue, select a finish with white, blue or gray pigment.

For water that appears green, look for green, tan, brown or black pigment.

Achieve

deep, rich water color.

{ 9 Feet Deep }

{ 4 Feet Deep }

**The Darker
Your Finish,**
the darker your pool
water will be.

**The deeper the
water, the darker
it will appear.**

Water will seem lighter in shallower areas like steps, ledges, benches, and beach entries where the finish itself is more visible.

JewelScapes® Classic Marina Blue Pool Finish

**Beauty,
More than
Surface
Deep...**

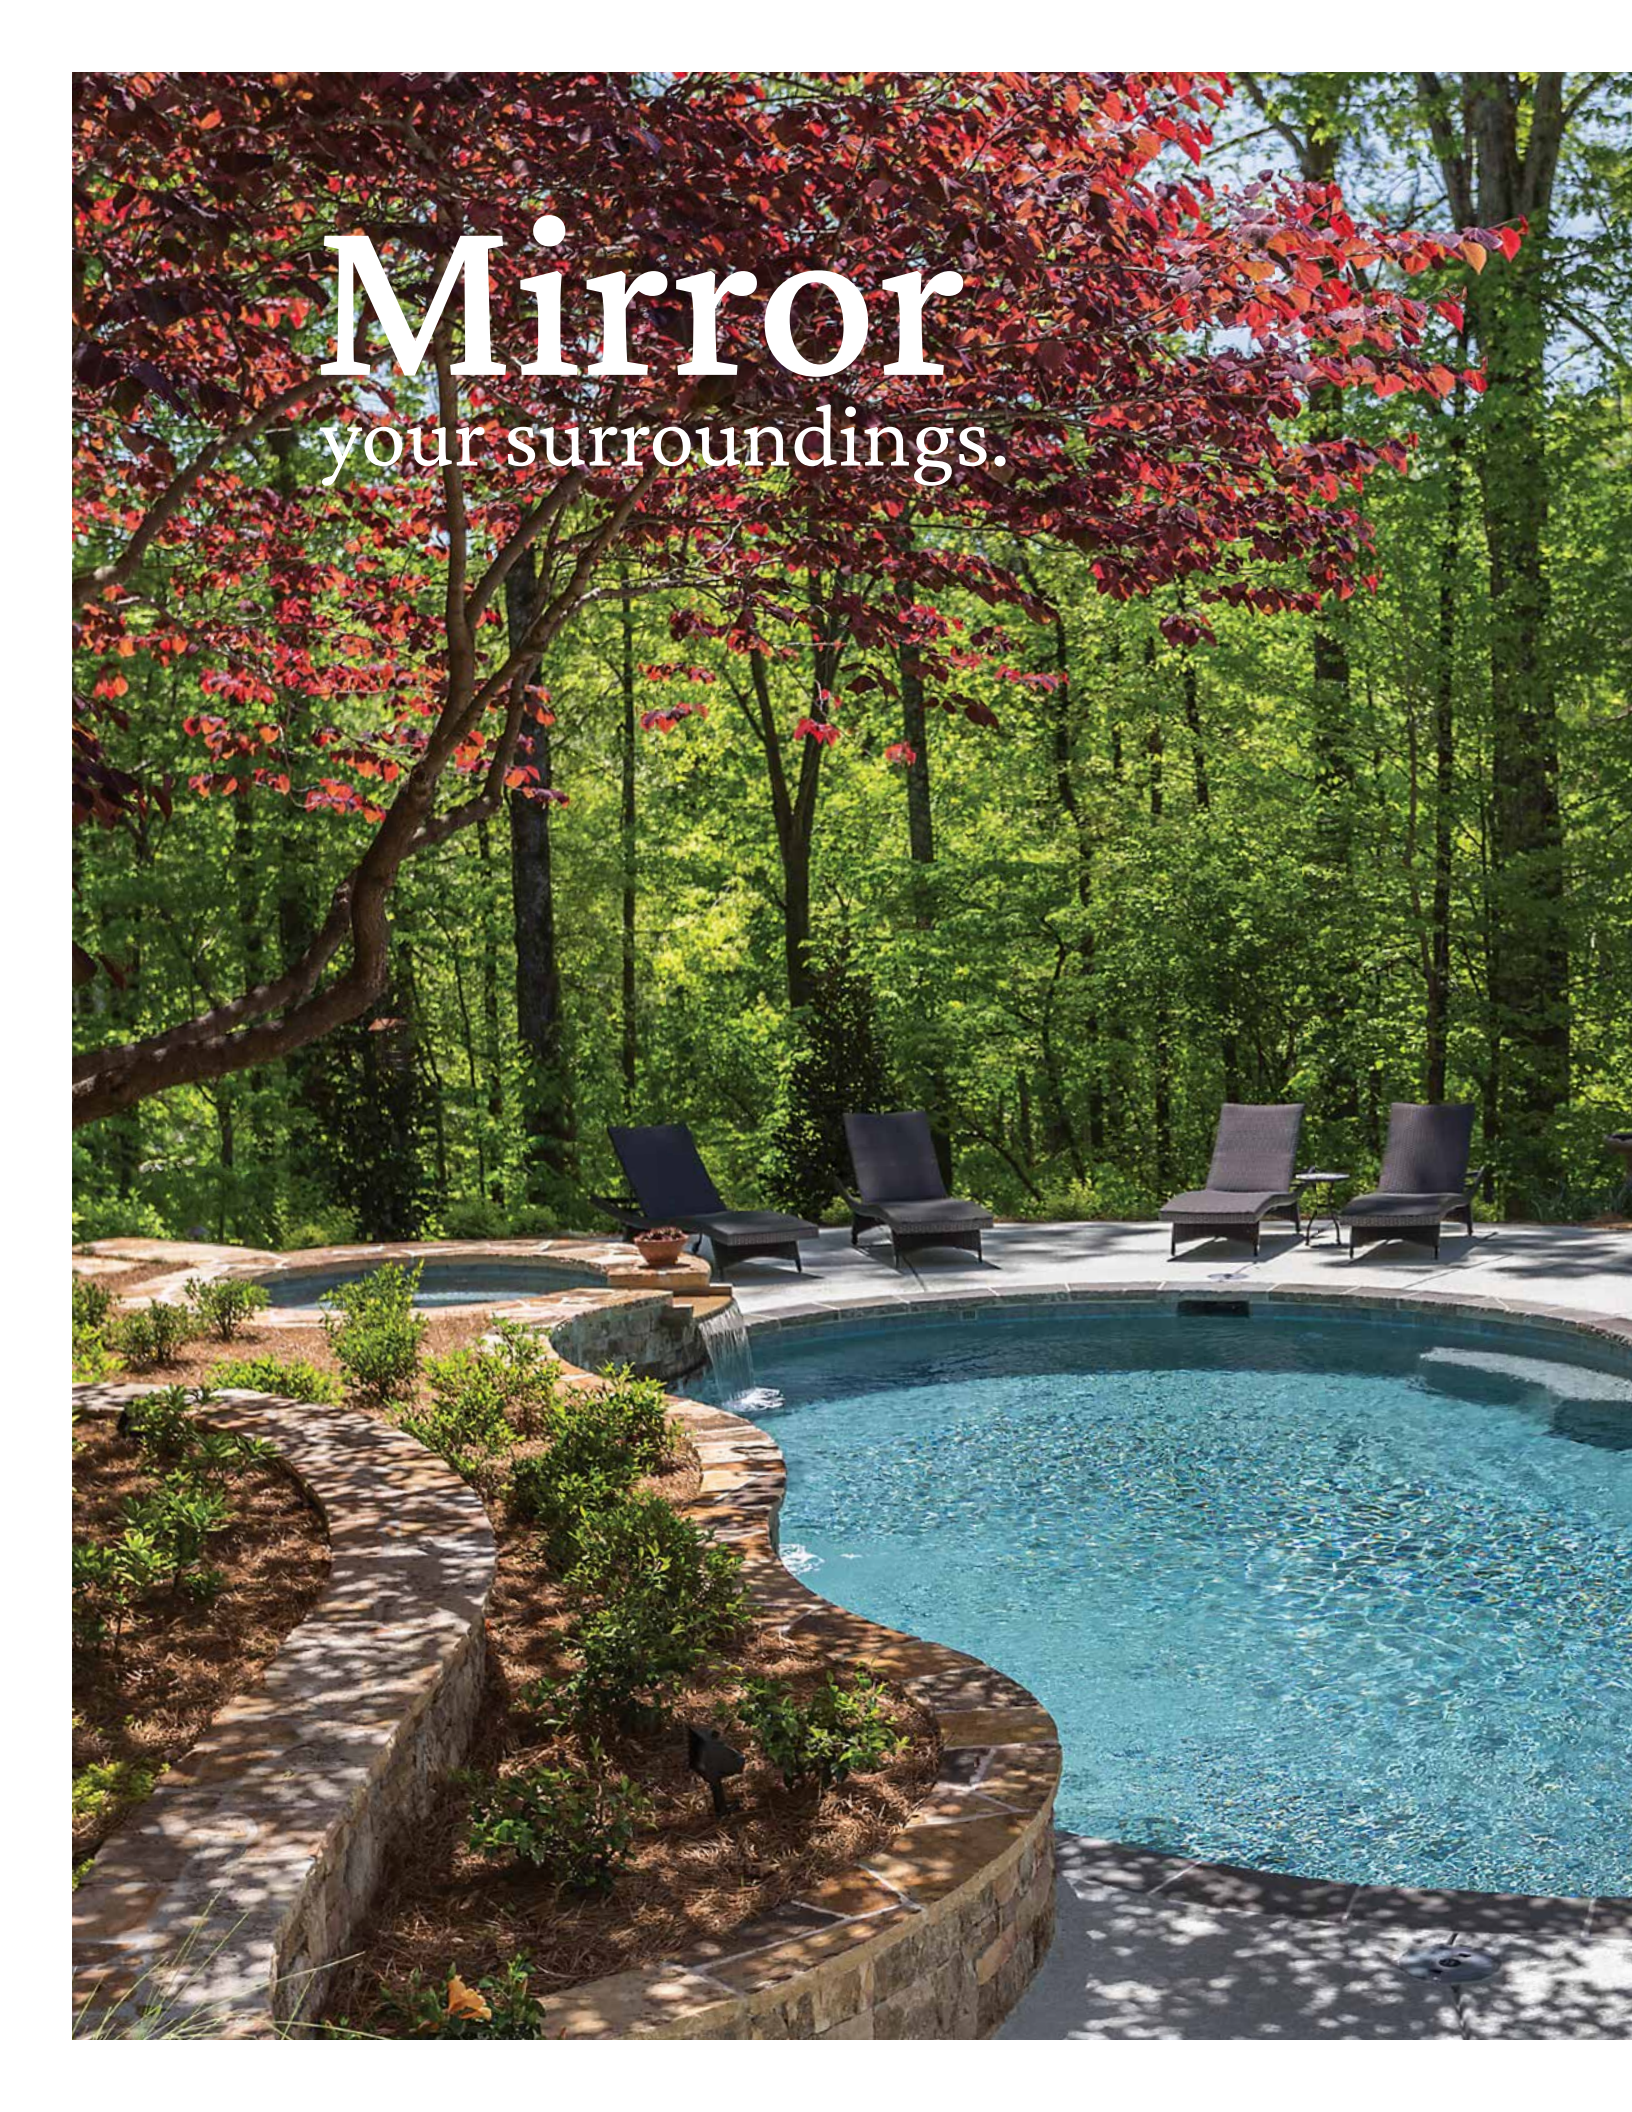

StoneScapes® Mini French Gray Pool Finish

**To achieve a
deep, rich water
color in a pool
without a deep
end, select a dark
colored pool finish.**

Your pool's depth has a huge impact on the color of your water.

Your pool may actually appear deeper when you select a finish with a darker pigment.

A photograph of a swimming pool in a wooded area. In the foreground, a large tree with vibrant red leaves hangs over the pool. The pool is surrounded by a stone wall and has a small waterfall feature. Four lounge chairs are placed on the pool deck. The background is a dense forest of green trees.

Mirror
your surroundings.

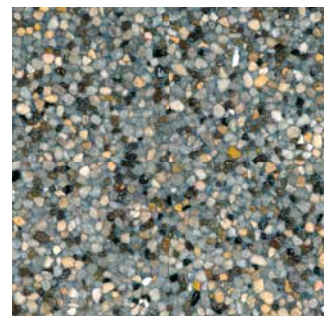

Since Your Pool Water will mirror its surroundings, many other factors will impact water color.

- The design, shape, and depth of your pool
- The time of day and position of the sun
- Whether the sky is sunny, stormy, or overcast
- Your region of the country
- The chemistry of your water
- Landscaping, trees, bushes, and other foliage
- Colors in your home's exterior

Pool Finish

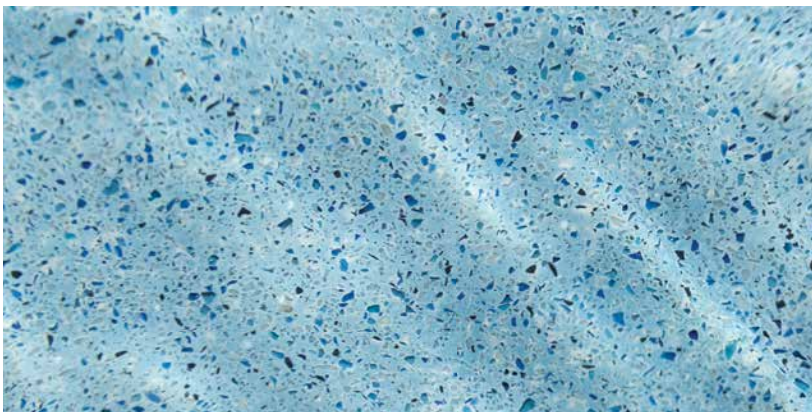

Ceramic Coated Colored Quartz Crystals

Pebbles with a Touch of Glass Beads

Glass Beads

Polished Marble and Glass Aggregates

When selecting
your pool finish,

**Texture
Should Be
Considered**
in addition to color.

With five types of finish
to choose from, NPT
Pool finishes feature
aggregates in a range
of sizes and smoothness
to choose from.

- For the sensation of swimming in a pool of rare gems, reflect on the glass beads of **JewelScapes®**.
- For a remarkably smooth, long-lasting finish, look no further than **PolishedScapes®**.
- Our most popular, durable finish, **StoneScapes®**, offers an array of pebble sizes – micro, mini, or regular.
- Combine stunning, smooth glass beads with any size pebbles for a dramatic, custom look all your own.
- For the enduring splendor of a smooth quartz finish, select **QuartzScapes®** or **ColorScapes®**.
- If purely deep, rich color is what you desire, consider **PlasterScapes®**.

Subtle Changes

in the appearance,
created by the play
of sunlight and shade,
are part of the
inherent beauty
of your pool finish.

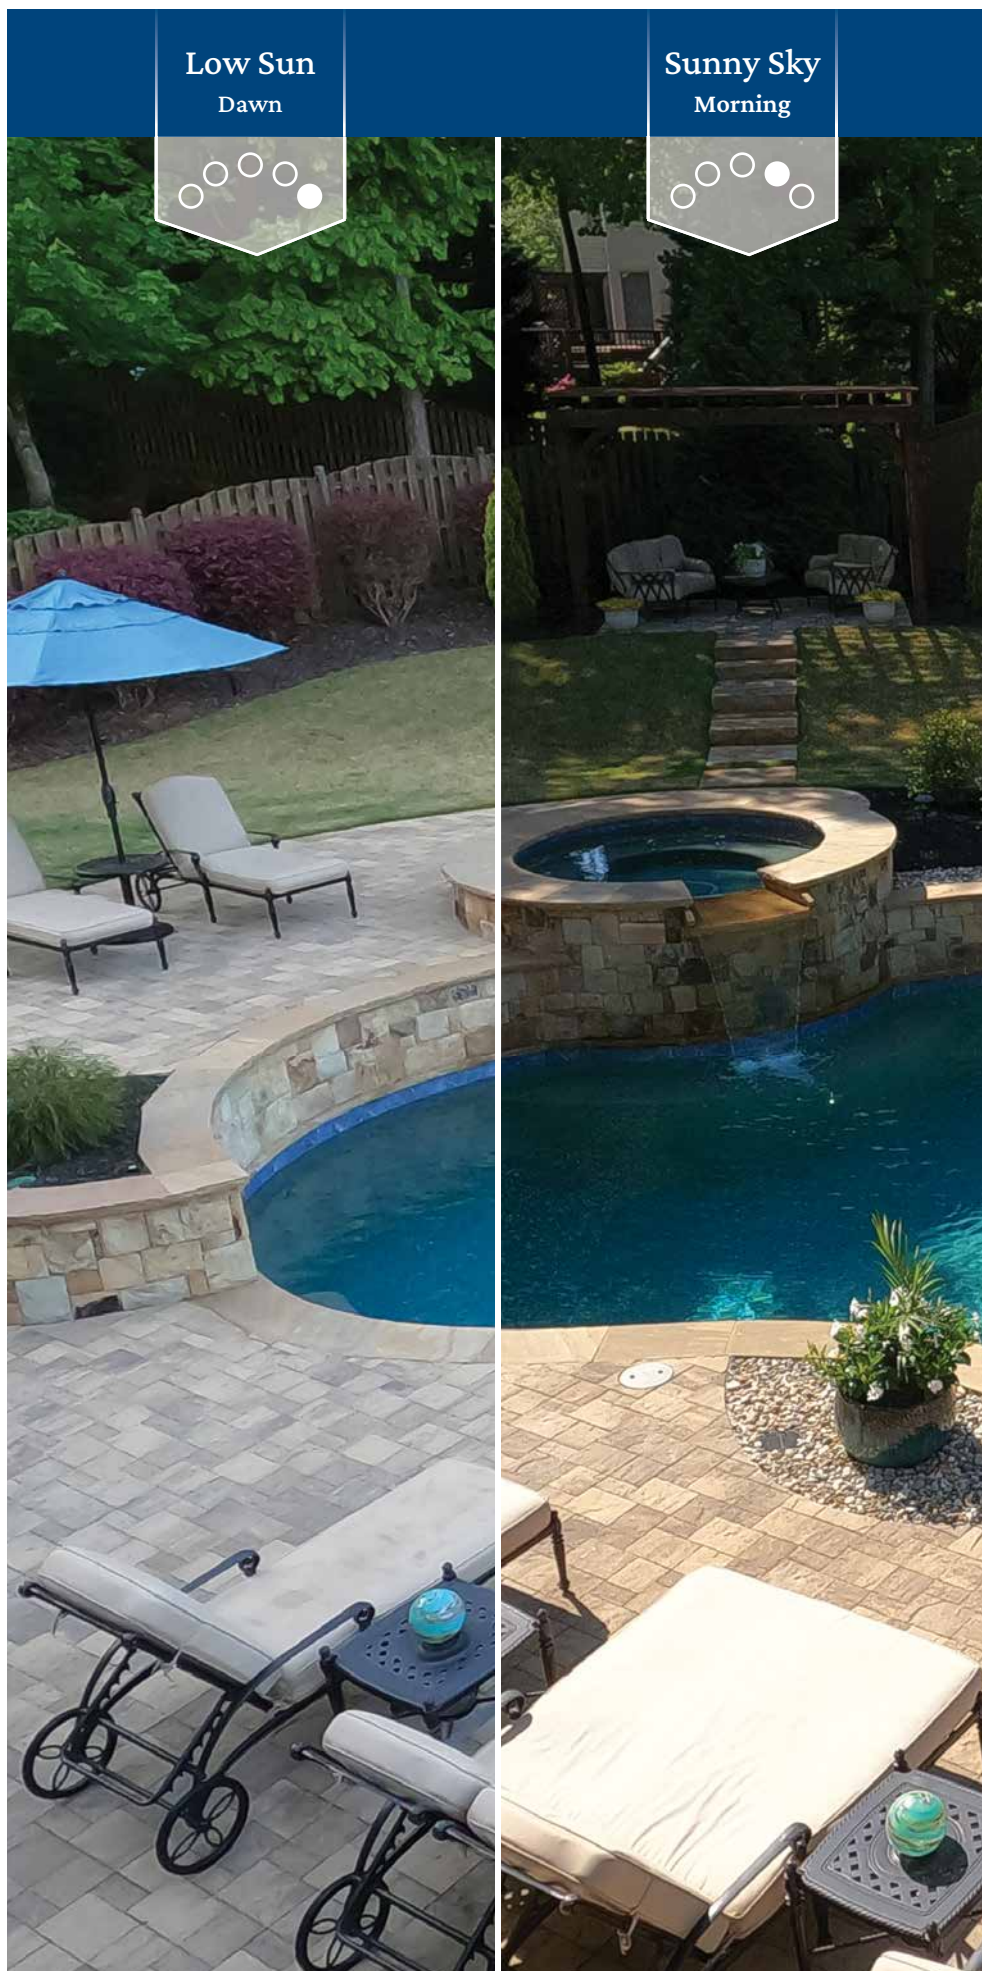

The color of your
Pool Water will be
**Uniquely
Yours.**
